## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 07 November 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 37-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kellison (4875808) in view of McMahon (6061990). Kellison discloses a post anchor footing system comprising:

1. a body 15/17 of resilient and elastic rubber line material having an upper end when vertically disposed; see column 2, lines 41-50; Kellison discloses rubber and rubber-like material. The source of this material has been considered a matter of choice. One of ordinary skill in the art would have selected any source convenient to the one making the device.
2. an elongated member 12 extending into the body 15 from the upper end of the body 15/17; the elongate member is one of a length of rebar or a length of tubing
3. the body is buried below the ground with the upper end exposed provides a resilient and stable anchor for a post or pole securely fastened to the elongated member at the upper end of the body
4. the body 15 allowing movement of the post or pole without dislodging the body from the ground; see figures 4 and 6
5. an upper neck portion 17 of substantially constant cross section

Kellison lacks the non-circular cross section in a horizontal plane. McMahon discloses a plastic post anchor footing with a non-circular cross section in a horizontal plane. McMahon further discloses a lower pyramidal base portion with sides sloping inward toward the elongate member. McMahon further discloses outwardly extending engaging members 15 contiguously formed on the outer periphery of the body for engaging the surrounding earth and forming a more stable engagement of the body.

It would have been obvious to include the cross section or configured anchor of McMahon to further provide additional anchoring properties to the footing system of Kellison as taught by the secondary reference.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 37-42 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3635

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
